## Organization and Mission -- Field

### 6 MISSILE WARNING SQUADRON (6 MWS)

This regulation gives the mission, organization, and responsibilities of the 6 Missile Warning Squadron, Cape Cod AFS, located on the Massachusetts Military Reservation, Massachusetts, and implements AFR 23-51.

**1. Mission.** To manage, operate, and maintain the AN/FPS-115 radar to provide tactical warning and support attack assessment of a sea-launched ballistic missile (SLBM) attack against the continental United States and southern Canada. Provides warning and attack assessment of an ICBM attack against these areas. Warning data are sent to North American Aerospace Defense Command (NORAD), United States Space Command (USSPACECOM), Strategic Air Command (SAC), National Military Command Center (NMCC), and Alternate National Military Command Center (ANMCC). The unit also provides surveillance, tracking, and limited space object identification (SOI) support for space surveillance operations.

**2. Organization.** The 6 Missile Warning Squadron is a HQ USAF controlled unit assigned to the 1 Space Wing. Operational resource management for the unit is provided by the Commander, Air Force Space Command (AFSPACECOM). Operational control is vested in the Commander in Chief, USSPACECOM through United States Space Command command and control facilities. The organizational structure is shown in attachment 1.

**3. Responsibilities.** The Commander:

- a. Organizes, trains, and administers assigned personnel to accomplish the mission.
- b. Provides administrative and logistical support to assigned personnel.

c. Establishes training and evaluation programs for operations personnel as directed by the 1 Space Wing.

d. Operates the radar sensor to accomplish the mission.

e. Provides data collection, processing, and reporting of operational testing and capability assessment.

f. Maintains and operates AFSPACECOM mission-unique systems. Operation and maintenance of standard communications-electronics-ADP systems in support of AFSPACECOM is the responsibility of AFCC.

g. Implements procedures for accommodating new mission requirements or system enhancement.

h. Manages a dining facility, recreation services, medical support, supply, transportation, and security police functions and a limited civil engineering function in support of the mission.

i. Evaluates and accepts on-site contractor performance in accordance with the statement of work.

j. Makes sure adequate support is provided by applicable host-tenant support agreements. Hanscom AFB (AFSC), Pease AFB (SAC), and the Massachusetts Air National Guard (ANG), and the United States Coast Guard (USCG) located on the Massachusetts Military Reservation provide support.

k. Is responsible for C-E maintenance of AFSPACECOM-unique assigned equipment.

Supersedes Space Command Regulation 23-36, 20 September 1984. (For summary of changes see page 2.)
